### Method of Application (step-by-step)

Please note that this treatment must be used by a licensed professional and all safety precautions and manufacturers instructions should be followed at all times. SDS available online at [www.kerazonprofessional.com](http://www.kerazonprofessional.com)

**ESSENTIAL TOOLS:** Fine tooth comb, clips, color brush, blow-dryer, flat iron, gloves, bowl, towels, round/paddle brush.

**CONSULTATION:** Complete a thorough client consultation hair/scalp analysis prior to treatment application. The consultation and the hair analysis will confirm whether the client is suitable for the treatment. Confirm the client is aware of the maintenance and post treatment care.

**1** - Apply Buritiliss Pre Treatment Shampoo on wet hair, gently massaging and rubbing the hair in the opposite direction, thoroughly the length of the hair. Rinse and repeat this process to remove all residue.

**2** - Remove excess moisture from hair (80% dry).

**3** - Divided hair into four sections.

**4** - The use of gloves is required this step onwards. With a brush apply Buritiliss Brazilian Keratin Treatment starting ¼ inch from the roots spreading evenly with a fine tooth comb towards the ends.

**5** - Dry hair section by section 100% using cold air only.

**6** - Split hair into small strands and begin ironing about 6 to 10 strokes on each strands, from roots to ends. Using indicated temperature based on hair condition. (450F on normal/resistant hair and 390F on blond damaged hair).

**7** - (no down time – no waiting time) Rinse Buritiliss Brazilian Keratin Treatment then apply a generous amount of Buritiliss Intensive Hair Mask on wet hair, strand by strand, from roots to ends. Gently massage and let it rest for 5 minutes. Rinse well.

**8** - Blow dry using fingers. Style as desired.

# Frequently Asked Questions

## Can the treatment be done after coloring/highlighting?

Yes, we recommend immediately after you color/highlight the hair.

## Can I color the hair after the treatment?

Yes, we recommend coloring the hair 2 weeks after you have the treatment done.
